

FUNCTION

- 2802 Zero Wall is a “Wood to the Floor” mechanism
- KD back brackets allow easy back removal for packing and handling
- Available in -0, -1, -2, ..., -5 and more seat widths
- Available with Cable/Lever and Inside Handle.
- Application for Chairs, Loveseats, Sofas, Sectionals and Home Theaters, optional for rail or modular construction
- 2803 is the motorized version of the 2802 model

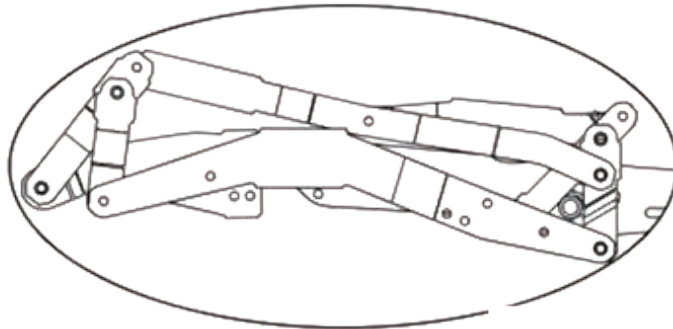

ADVANTAGES

- The rail enhances stability and synchronism when stretching and retracting
- The 1.3 cm of bottom elevation prevents any exposure of sofa
- Supporting edge fold avoids sinking
- The seat height is lowered by 2.5 cm which is applicable for more styles of sofas
- Great choice for Home Theater
- Optional for headrest articulation

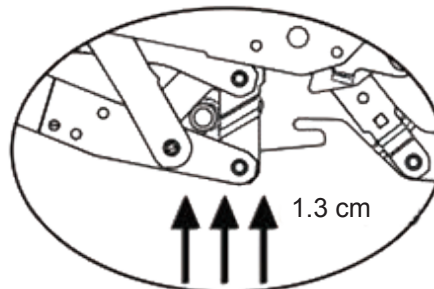

IMPROVEMENTS

Fastness : Add supporting edge fold to avoid sinking after using period of time.

Stability: The rail enhances stability and synchronism in the process of stretching and retracting.

Compactness: Shorten 1.3 cm at the bottom, so that sofa can be fully wrapped.
